*In the shadows
Around the corner
Over your shoulder
That is where I hide
Incognito
Camouflaged
You can't see me
Master of disguise
But I'm just two steps behind
I'm an avid follower
Your biggest fan since you've caught my eye
Just a love sick maniac
I've got a thing for ya
I can't help the way I act
You make me lose my mind
Baby please, can't you see I'm crazy for you
Mercy, you'll be my demise
Sexy, ain't no one got nothing on ya
Boy you've got me on my knees
Can't you see I'm so crazy for you*

*In your rear view mirror
Eyes are on ya
Out your window
Underneath your bed
Can you feel me?
Hot, cold, warmer
You can't spy me
I'm one step ahead
And now I'm just two steps behind
I'm an avid follower
Your biggest fan since you've caught my eye
Just a love sick maniac
I've got a thing for ya*

Boy you've got me on my knees

*I've gone coo-coo in the head, lost my marbles, misplaced them
Sanity's hanging by a thread, it's tight in this straight jacket
I've gone cray-cray for you
A hot mess in full pursuit (lunatic)*

*I can't think straight
Lost my marbles
Little cray-cray
Coo-coo in the head
Boy I can't wait
To get my hands on ya
Surrender to me
Totally obsessed
I'm an avid follower
Your biggest fan since you've caught my eye
Just a love sick maniac
I've got a thing for ya
