*You're like nothing else I've ever seen
Straight out of a magazine
Don't turn the page
Sure look good enough to eat
Let me dress you in whipped cream
Can I get a taste?
And I can't help to think what it'd be like to be with you
So tell me are you wondering the same thing too
Cause if you are then baby why not see this through
You've got something no one else does
So try, take a chance on me and I'll take one on you
You'll never know until you've ventured something new
Just imagine all the things that we could do
You're exactly what I've waited for
So come away, come away
Come away, come away
Come away, come away
Come away with me
So come away, come away
Come away, come away
Come away, come away
Come away with me*

*I want you to run away, come away and take a trip with me
We'll start in Spain and end up some place in Italy
Hop on a yacht and make waves to Sicily
We'll make moves, make love, make and make history
I can't deny that you're flyer than a bomber fleet
Just put those other cats in the past like Quantum Leap
Cause honestly baby girl you know that you belong with me
I'm all about class and quality over quantity
Never been average these others cat's status
Is running game that's faker than a David Blaine magic trick
It's accurate to say this passion is immaculate*

*So fabulous but actually this ain't even the half of it
We'll never settle, got the condo and the rental
From the streets to the beach sippin' shots of Amaretto
Forever you're a dime, like I'm clever with the rhyme
Together forever so forever together we shine*

*And I can't help to think what it'd be like to be with you
So tell me are you wondering the same thing too
Cause if you are then baby why not see this through
You've got something no one else does
So try, take a chance on me and I'll take one on you
You'll never know until you've ventured something new
Just imagine all the things that we could do
You're exactly what I've waited for
So come away, come away
Come away, come away
Come away, come away
Come away with me
So come away, come away
Come away, come away
Come away, come away
Come away with me*
