*Ooh! When I first met you it was so amazing
Like fireworks lighting up the night and they were saying Boom!
It was love at first sight
This is crazy
I'm falling hard and fast, can't slow down my heart's pacing*

*Step on the gas
Shift into high gear
Let's go fast...disappear
Feet on the dash, I'll let you steer
And if we crash, I'll have no fear
On the run, on the run
Just like Bonnie and Clyde
Love's a loaded gun
It's the ride of our lives
Our story's just begun
And we're partners in crime
We won't stop till we're done
See our name in the Times*

*I wanna ride with you off into the sunset
Drive till the days are new
Boy are we there yet?*

*Ooh! When you first kissed me it was like a dream
A warm and fuzzy feeling came over me
True...this could be risky
But it's a chance I'm going to take
I'm betting all my cards on you, willing to break the bank*

*Step on the gas
Shift into high gear
Let's go fast...disappear
Feet on the dash, I'll let you steer*

*Ooh! Your love it hit me unexpectedly
We've dodged so many bullets, now we're thick as thieves
I would die for you, it's for you I bleed
I'm six feet under , I'm all in, you're the death of me*
