*Maybe it's the air  
The invitation of a longing stare  
Maybe we could share  
A rendezvous for two our bodies bare  
See I'm free, willing and single  
Boy would you like to mingle  
You make my whole body tingle  
Let's get it on  
Let's get it on  
Let the music set the pace  
Let our bodies start to move  
As my heart begins to race  
I find myself wanting you  
More and more, it's getting hotter  
In this cramped and crowded room  
Would you like to take this outside  
Let's get it on me and you  
Grab a hold baby  
Don't let go baby  
Lose control baby  
Make me go crazy*

*Tonight we'll be on a secret agent mission for sure  
I'm lovin' the vocab, the Coach bag and the Christian Dior  
I wanna see your sexy side and you can give me a tour  
Soon as we hit the Broadmoor, check in and get through the door  
It'll be kissed galore, next we're physically raw, then I'm a give you everything that you've  
been missing and more  
A home run cause baby girl you know that I can hit it right  
You figured right, skins all night, this is like Kryptonite  
I don't fight fair  
I break all the rules and I don't care  
This dance we share  
Show me your moves if you dare*

*We've got the high rise the Mai Tai's and the bottle of Moscato  
Deck out in a pent house on the top of Colorado  
Sippin' on some Alize once I get you out the lingerie  
Then you can be my Maybelline queen from around the way  
I'm talking cardio and about a dozen reps  
So when it comes to sex literally you know what's coming next  
You got the kind of shine only a dime hottie would show  
Let's get it on baby girl I'm talking mind body and soul*

*A love affair  
DJ play my song as the dance floor we tear  
The end is near  
But the night is long if you've got time to spare  
See I'm free, willing and single  
Boy would you like to mingle  
You make my whole body tingle*
